

Marian Blue

**Masters in Library and Information Science,
San Jose State University**

12-2013

Tech-Savvy Librarian: technically skilled with an accounting career that spans over 11 years; experience in designing tutorials and teaching with a computer for library users; ability to troubleshoot technical issues; and comfortable with public service and presentation.

Profile

- Ability to meet project deadlines.
- Video Tutorials and Screencasts
- Library Promos / Blogs / Booklists
- Cataloging
- Bibliographies & LibGuides
- Reference Service
- Adobe Creative Suite
- Follett Destiny Proficient

Trade tools

Adobe Creative Suite Design & Web Software: Photoshop, Illustrator, Dreamweaver, Flash, Fireworks, InDesign, Acrobat.

Indexing Project

The project was to take a portion of a website and index the ideas from that site; a web based A-Z index was created as a result. The challenge was in indexing the actual ideas of an index and not something mentioned in passing. This was an exercise in organization as well as design development.

Collection Management Presentation

The challenge was to create a website displaying the details of an on-line collection and presenting it in a web format that demonstrated the use of the collection's catalog and images. Features included internal links and photos from the collection.

Fieldwork

Electronic Service Librarian

Create/edit staff guides; utilized taxonomy for creating booklists; Summer Reading Program (Children, Tweens, Adults); Blogs, Library Promos, Pintrest Pins; Video tutorials & screencasts on library media on-line applications and e-book check out.
